Wheeling, WV 26003

Dear Dr. Reese,

Congratulations! You are a winner of the 2012 International Science & Engineering Visualization Challenge!

We are delighted to inform you that your entry, "CyGaMEs Selene II: A Lunar Construction GaME" has won Honorable Mention in the Games & Apps category!

We would like to thank you for participating in the Challenge, sponsored by the journal *Science* and the National Science Foundation (NSF). In the 10th year of this international competition, we received a diverse array of exceptional entries, making the selection process very difficult. We hope that you found the Challenge to be a rewarding experience.

Enclosed with this letter is a certificate of appreciation. Your visualization, along with the other winners, was posted on the NSF website (nsf.gov/news/scivis), in the journal *Science*, and on ScienceMag.org in February 2013.

Once again, we thank you for taking the time and the effort to submit your entry in the 2012 International Science & Engineering Visualization Challenge, and we look forward to your participation in next year's competition. If you need further information, please contact, Tarri Joyner at (703) 292-7742 (tjoyner@nsf.gov).

Sincerely,

A handwritten signature in cursive script that reads "Susan Mason".

Susan Mason
Head, External Affairs
